Time to take your training to a higher level !

In this class you will learn:

- The Reiki Symbols and how to use them
- Guided Meditation to prepare for attunement
- Reiki II Attunement
- Documenting a Reiki session
- Distant healing-how to send Reiki across distance, to the past, present and future
- Hands on practice with the symbols
- 2 additional Japanese Reiki Techniques

The 2nd degree attunement works more directly on the Etheric body and tends to stimulate the intuitive center that is located at the pituitary gland, the body's "Telepathic Apparatus." After the initiation this center is more easily focused. As a result, Reiki 2 students find that as time passes they are more attuned to their Higher Selves, and will find the energy amplified for emotional / mental healing.

This one day class will include an initiation on your hands, learning to use three symbols and practical techniques using this level of focused energy. This increased energy works very deeply on the emotional, mental causes of stress and disease.
